Student Choice: Year-Long Elective Classes

Students can choose to opt into the year-long electives listed below. Each class will take the place of an exploratory class each trimester. **These classes are a full-year commitment and students will not be removed from these classes after registration or mid-year.**

Students may select one year-long class from each box. If you are wanting more than one of these classes listed below in each box, please rank all of those you are interested in.

_____ **Spanish I:** No previous Spanish required.

_____ **Spanish II:** Pre-requisite of a passing grade in Spanish I required and teacher approval.

_____ **French I:** No previous French required.

_____ **French II:** Pre-requisite of a passing grade in French II required and teacher approval.

_____ **Beginning Band:** No previous band experience required.

_____ **Band:** This course is for students with at least one full-year of previous instruction on a band instrument.

_____ **Beginning Orchestra:** No previous string instrument experience required.

_____ **Orchestra:** This course is for students with at least one full-year of previous instruction on a string instrument.

_____ **Choir**

In an effort to provide a complete middle school experience, student's schedules will be filled with computer generated exploratory classes. Each trimester students will have two exploratory classes. Exploratory classes may include, but are not limited to: Computer Literacy, Family & Consumer Sciences, Physical Education, STEM and Visual Arts. ***Students cannot choose to opt in or out of these classes.***

We do offer several level two exploratory classes. If you are interested in any of these classes, let us know by selecting them below. You may select more than one. **Selecting the class does not guarantee your placement, and even if it is not selected you may still see it on your schedule.**

_____ **Robotics** *Must have completed Computer Literacy with a passing grade

_____ **Culinary Arts** *Must have completed Family and Consumer Sciences or Foods and Nutrition with a passing grade

_____ **Mechanics of Engineering II** *Must have completed Mechanics of Engineering I with a passing grade
